

GeoDATA 2018

November 29th, 2018
ILEC Conference Centre,
Earls Court
London

Time	Cambridge Suite	Linton Suite	Fulbourn Suite
9:30 – 9:45	DigitalGlobe <i>Not all Geodata is created equal</i>	Spottitt <i>The use of satellite imagery and complex analytics to quickly and remotely monitor assets and asset damage post flood, high wind or wildfire event</i>	Aligned Assets <i>Benefits of sharing location intelligence, enhanced by using cutting-edge augmented reality technology</i>
9:50 – 10:05	Bluesky International Ltd <i>Aerial Survey – still the foundation of GeoInformation?</i>	Cadline <i>Utilising Open Source GIS to integrate geospatial and CAD workflows - the insights of a 'Geographer in a CAD World'</i>	Getmapping <i>Providing best-fit solutions to geospatial challenges</i>
10:10 – 10:25	Cadcorp <i>Fighting crime with GIS</i>	Gaist <i>Roadscape data</i>	SCISYS UK Ltd <i>Child's Play: Building open geospatial architectures, what can we learn from our kids?</i>
10:25 – 10:55	Networking Break		
11.00 – 11.25	KEYNOTE: Government Head of Geography – David Wood		
11.30 – 11.35	MapAction <i>What geodata is really needed in a sudden onset disaster?</i>	Chartered Institution of Civil Engineering Surveyors <i>Membership and geospatial engineering</i>	INSURANCE FOCUS WELCOME AND INTRODUCTION
11.35 – 11.50	GeoXphere <i>Singing from the same hymn sheet: Cloud GIS as a decision-making tool</i>	British Geological Survey <i>From the ground up - looking at geospatial data from a different perspective</i>	INSURANCE FOCUS TALK Allianz
11.55 – 12.10	GeoPlace <i>Unlocking value from unique location identifiers</i>	KOREC <i>Rapid and safe Mobile mapping data capture, with an integrated workforce management solution</i>	INSURANCE FOCUS TALK Verisk <i>The Data Gap: Reducing risk through intelligent data</i>

12.15 – 12.30	Verisk GeoInformation <i>An introduction to Geomni</i>	42 Engineer Regiment <i>How defence are using Geodata</i>	INSURANCE FOCUS TALK Hiscox
12.30 – 13.05	Lunch Break & Networking		
13:05 – 13.30	KEYNOTE: Transport for London – Simon Cooper		
13.35– 13.50	Skyline Globe UK <i>Creating a 3D textured mesh model of London, how it was made and applications of it</i>	ESRI UK <i>3D city enablement</i>	INSURANCE FOCUS TALK AddressCloud
13.55 - 14.10	Harris Geospatial Solutions <i>Using UAV imagery and deep learning for wind turbine inspection</i>	Nautoguide <i>Pushing the boundaries – using web technologies to solve complex boundary changes</i>	INSURANCE FOCUS TALK MS Amlin <i>Augmenting underwriting decisions: Predicting UK property fires</i>
14.15 – 14.30	1Spatial <i>Geospatial data stewardship - Powering UK Geospatial Readiness</i>	Spacemetric <i>UAVs for 3D models of dynamic events</i>	CHC <i>The automation of surveying</i>
14.30 - 15.00	Networking Break		
From 14.30	Free Mince Pie & Mulled Wine		
15.00 –16.30	Geo-Quiz		
16.50	Exhibition Close		

Programme is subject to change
